EXPERIENCE

Microsoft

Aug 2022 - Present

Data & Applied Scientist

Hyderabad, India

- > Improving the experience of searching for tech-related queries on the Bing search engine.

Mastercard

June 2021 - July 2021

AI Specialist Intern

Gurgaon, India

- > Interned with AI Garage team at Mastercard, which focuses on designing AI-based solutions for payments.
- > Built models for predicting high-value transactions, and the time and category of future transactions.

EDUCATION

Indian Institute of Science, Bangalore

Aug 2020 – Jul 2022

Master's in Artificial Intelligence

Grade: 8.04 / 10

Heritage Institute of Technology, Kolkata

Aug 2016 – Jul 2020

Bachelor's in Computer Science & Engineering

Grade: 8.82 / 10

PROJECTS

- > Adversarial attacks on recommendation system models [↗](#)
- > Multimodal transformers for image captioning [↗](#)
- > C-LSTMs vs transformers for multi-class text classification [↗](#)
- > Modeling the spread of COVID-19 in Karnataka, India [↗](#)
- > Movie recommendation system using graph neural networks and collaborative filtering [↗](#)
- > Dynamic meta-embeddings for improved sentence representations [↗](#)
- > Duckworth-Lewis method for predicting target runs in cricket games [↗](#)
- > Gradient based optimization of hyperparameters for linear models [↗](#)
- > Image compression using principal component analysis [↗](#)

TECHNICAL SKILLS

Programming Languages: Python, SQL, C#, C, Bash, MATLAB

Tools & Frameworks: Pytorch, Tensorflow, MLflow, Scikit-learn, Azure ML, Cosmos DB, Git

Key Courses: Pattern Recognition & Neural Networks, Advanced Deep Learning, Computer Vision, Data Analytics, Reinforcement Learning, Deep Learning for Natural Language Processing, Image Processing, Random Processes, Computational Optimization, Game Theory, Scalable Systems for Data Science, Data Structures & Algorithms

ACHIEVEMENTS & EXTRACURRICULAR

- > All India Rank 6th in GATE Computer Science exam, out of ~1,00,000 candidates
- > Teaching Assistant for E2 202: Random Processes, Fall 2021
- > Certified in "CodeChef Certified Data Structures and Algorithms Programme", Advanced Level (Jan 2018)
- > Global percentile of 98.6 in programming contests on Hackerrank
